

## LIST OF BQA REGISTERED HIGHER EDUCATION AND TRAINING PROVIDERS AND THEIR LEARNING PROGRAMMES

The Botswana Qualifications Authority (BQA) is a parastatal under the Ministry of Tertiary Education Research Science and Technology established by the Botswana Qualifications Authority Act, No 24 of 2013, to:

- Provide for and maintain the National Credit and Qualifications Framework, which is a ten (10) level tool to promote articulation and progression across all levels of education and training.
- Coordinate the education, training and skills development quality assurance system, from early childhood to tertiary level (lifelong learning). This includes registration and accreditation of both public and private Education and Training Providers, qualifications, learning programmes, assessors and moderators.

BQA took over quality assurance functions that were performed by the former Tertiary Education Council and Botswana Training Authority. The transition to new BQA Regulations commenced in January 2017.

Section 33 of the Botswana Qualifications Act, 2013 provides that “any subsidiary legislation made under the repealed Act, and in force immediately prior to coming into operation of this Act shall, in so far as such legislation is consistent with the provisions of this Act, continue to be in force as if made under this Act” To this end, learning programmes that were registered, approved or accredited under the old Regulations are valid, and registered Education and Training Providers (ETPs) are allowed to continue offering them during the transition period.

Learners enrolled in the currently registered, approved, provisionally accredited, fully accredited or deferred accreditation learning programmes leading to qualifications that commenced before the coming into effect of the new Regulations shall complete their studies and their qualifications will be recognised.

Regulation 22 of the Botswana Qualifications Authority (Registration and Accreditation of Learning Programmes) Regulations, 2016 provides that an Education and Training Provider (ETP) who, at the coming into operation of these Regulations, has been carrying on the business or activity of education and training shall within 12 months of the coming into operation of these Regulations comply with the provisions of these Regulations.

**Under the new system, no learning programme will be offered until it is accredited and therefore the other statuses will not apply.**

### DEFINITIONS OF THE ACCREDITATION STATUSES (UNDER THE OLD SYSTEM)

- Approved** – The programme is validated against set standards by experts after which the ETP is given permission to offer the programme. This means the learning programme can be offered, and learners will graduate with a qualification that is recognised. This ETP may after offering the programme for at least one academic year apply for programme accreditation.
- Provisional Accreditation** – This status is given after the validation process has identified some gaps that the ETP must close within 6 months. Meanwhile, the ETP is allowed to enrol students in the learning programme and teach them towards a recognised qualification.
- Deferred Accreditation** – This means that the learning programme has not been accredited because the validation process has identified gaps that would need a year to close. Learners already enrolled on the learning programme when this status is attained would complete and graduate with a recognised qualification. During this period, the ETP would be under close monitoring by BQA to ensure learner protection. The ETP is not allowed to enrol new learners until the status changes to either Provisional or Full Accreditation.
- Rejected** – A programme is denied accreditation and should cease to run. Learners already enrolled on the learning programme will be transferred to an alternate ETP that provides a similar programme. The alternate ETP is normally identified at the time of application for accreditation for learner protection purposes.
- Fully Accredited** – This status is given after validation has identified no gaps on the ETP and the learning programme. The programme can be offered and will be subjected to normal monitoring by BQA.

Below find the extract from Quality Assurance Database Register of private Higher Education and Training Providers as at 05 May 2017
