RATIONALE AND PURPOSE OF THE QUALIFICATION

With the growth in construction of residential homes, shopping malls, commercial buildings, and other architectural developments, the need for real estate practitioners is forever increasing. According to the Human Resources Development Council's (HRDC), 'Top Occupations in High Demands report' (2016), real estate agents and property managers have been identified as one of the top occupations and priority skills in Botswana. This was mainly based on the real estate sub-sector potential growth and the creation of employment.

In addition, the Botswana Vision 2036 pillar on Infrastructural Development emphasises the need to develop world class infrastructure to facilitate economic diversification and international trade opportunities. Moreover, the massive infrastructural developments that have taken place Botswana in the last 20-30 years and those that are envisaged under the National Development Plan (NDP11) also necessitate the importance of skilled and trained manpower in the field of real estate management.

DNCQF.FDMD.GD04 Issue No.: 01

The needs assessment conducted revealed that there was need for skills training and development in the field of real estate management, where 100% of respondents affirmed that the proposed qualification was relevant to human resources need of the country. The respondents were mainly private organisations, parastatals and government organisations who operate in the real estate and property management sector.

This qualification would enable candidates to register with the Real Estate Advisory Council which was established by the Real Estate Professionals Act, 2003 in order to provide for the regulation of activities and conduct of the real estate profession in Botswana and other matters incidental thereto.

The purpose of this qualification is to give candidates broad technical knowledge, skills and competencies to:

- i. Determine property values and measure economic returns of real estate investments.
- ii. Provide guidance to buyers or sellers with the purchase or sale process, including identifying and articulating issues, ensuring compliance with relevant laws, coordinating inspections and appraisals, negotiating sales price, and helping clients understand and select financing options.
- iii. Conduct real estate transactions, as licensed agents/brokers including property listing, rent, lease and/or sell a property.
- iv. Apply appropriate procedures and practices in residential real estate sales transactions according to the ethical and legal standards of the Real Estate industry.

This qualification would enable candidates to register as members of professional bodies, such as the Real Estate Institute of Botswana (REIB).

ENTRY REQUIREMENTS (including access and inclusion)

i. Minimum entry qualification is Certificate IV, NCQF Level 4 (General Education or TVET).

OR

ii. Access and Inclusion: Applicants who do not meet the requirements above may be considered through RPL and CAT in line with relevant ETP or national policies.

QUALIFICATION AWARD AND CERTIFICATION

i. To be eligible for the award, candidates must have successfully completed all fundamental and core modules and passed examinations in accordance with regulations set by the Faculty. The Certificate V in Real Estate will be awarded to candidates who have obtained a minimum of 120 credits.

REGIONAL AND INTERNATIONAL COMPARABILITY

This qualification compares well with the following regional and international qualifications:

- National Certificate in Real Estate, NQF Level 5 SGB Real Estate, Republic of South Africa
- Certificate in Real Estate, NQF Level 5 Citrus College, Los Angeles California, United States
- Certificate in Real Estate, NQF Level 5 Cuyamaca College, Calfornia, United States

The proposed Certificate in Real Estate follows a similar structure like the above mentioned qualifications offered by other institutions of higher learning. All the qualifications are pitched at the same level (NQF 5) and aims to give basic grounding in real estate operations, as well the related laws and regulations in specific countries. There are common modules which make up the structure of all the qualifications such as real estate principles and practices, real estate law, real estate financing.

Unlike the proposed Certificate in Real Estate, which offers all modules as fundamental and core, other qualifications have an option for elective modules, where candidates would select a number of modules in addition to the compulsory ones.

Depending on the number of the modules the qualification durations differ and range from 6 months to a full year. There are also notable differences in the credit value of each qualification. The proposed qualification carries 120 credits, whereas the National Certificate in Real Estate offered by SGB Real Estate, Republic of
