RATIONALE AND PURPOSE OF THE QUALIFICATION															
RATIONALE:															

The Road Traffic Act 69:01 of 1973 mandates the Department of Road Transport Services to issue driving licenses and professional driving permits and matters incidental thereto, amongst others. The Department's overall aim is to;

- · Professionalise driver training, testing and licensing,
- Improve traffic law compliance,

- Promote compliance with applicable industry standards such as Botswana Standard Classification of Occupations (BOSCO 2008) and the Southern African Development Community (SADC) driving standard-K53,
- Promote road safety awareness,
- Improve post-crash response by Emergency Medical Services.

To achieve the above, the Department has drawn the Botswana National Road Safety Strategy, with the objective to improve driver skills and knowledge of safe driving behaviour with the following intended outcomes;

- 1. All drivers applying for a driving license test have received driver training.
- 2. Driver training is done professionally and effectively.
- 3. All drivers have the required knowledge, skills and attitude to obey road rules and regulations.

To achieve the above-intended outcomes, the Department has developed activities such as;

Activity A1.2b of the Strategy: Implement compulsory driver training under Activity 12B

Activity A12c: Update the driver training curricula for all classes of license – also to include issues such as appropriate response to emergency vehicles on the road under A12C of the strategy.

Therefore, in line with the requirements of the Strategy, this qualification Certificate V in Driver Education has been developed.

PURPOSE: (itemise exit level outcomes)

The purpose of this qualification is to produce learners with broad technical knowledge, skills and competence to:

- 1. Prepare and deliver sessions for learner drivers.
- 2. Evaluate learner driver's performance based on sessions delivered.
- 3. Use audiovisuals to illustrate and explain the handling of mechanical operations of vehicles and driving techniques.
- 4. Instruct students under actual driving conditions.
- 5. Teach road traffic regulations, road craft, road safety and defensive driving.
- 6. Advise students when they are ready to undergo examinations.

MINIMUM ENTRY REQUIREMENTS (including access and inclusion)

Minimum of Certificate III NCQF Level 3.

There shall be provision for inclusion and access through RPL and CAT in line with institutional policies

(Note: Please use Arial 11 font for completing the template)

SECTION B QUALIFICATION	ON SPECIFICATION				
GRADUATE PROFILE (LEARNING OUTCOMES)	ASSESSMENT CRITERIA				
Prepare and deliver sessions for learner drivers in accordance with set standards. Evaluate learner driver's ability and performance based on facilitation sessions delivered	 1.1.Identify learning outcomes for sessions. 1.2. Set up the venue for a session. 1.3. Select and apply relevant content and teaching aids for facilitation sessions. 1.4. Select and apply relevant teaching methods and strategies for specific sessions. 1.5. Conduct sessions as per the plan. 1.6. Review sessions to inform the improvement of future sessions. 2.1 Develop assessment instruments for reviewing the progress of learner drivers 2.2 Examine assessment tools against set outcomes and guidelines 2.3 Administer assessment instruments 2.4 Appraise learners' acquisition of knowledge and skills based on assessment instruments 				
3. Demonstrate broad technical knowledge and understanding of road traffic legal frameworks and requirements	 2.5 Provide feedback on learner drivers' performance 2.6 Close Learning Gaps Identified Through Assessment 2.7 Record facilitation and performance outcomes. 3.1 Explain the driver licensing process to learners 3.2 Describe legal requirements relating to driver licence endorsements to learners 3.3 Classify different road rules to learners in accordance with set standards. 				

4. Facilitate defensive driving principles and techniques sessions to respond to emergency situations. 4.1 Teach advanced driving skills to learners. 4.2 Demonstrate defensive driving techniques such as SIPDE (Scan, Identify, Predict, Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1 Apply relevant code of ethics in driver training 5.2 Explain acceptable behaviour and conduct related to road use 5.3 Record and maintain accurate records 5.4 Adhere to the workplace code of practice. 5.5 Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6 Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and responsibilities of a First Aider.		
4. Facilitate defensive driving principles and techniques sessions to respond to emergency situations. 4.1 Teach advanced driving skills to learners. 4.2 Demonstrate defensive driving techniques such as SIPDE (Scan, Identify, Predict, Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1.Apply relevant code of ethics in driver training 5.2.Explain acceptable behaviour and conduct related to road use 5.3.Record and maintain accurate records 5.4.Adhere to the workplace code of practice. 5.5.Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6.Exercise customer service in line with customer service standards 6. Facilitate basic first aid sessions in accordance with the Road Traffic 6.2 Apply knowledge of the role and response in driving. 6.2 Apply knowledge of the role and response in driving.		3.4 Describe legal requirements relating to driver
4.2 Demonstrate defensive driving techniques such as SIPDE (Scan, Identify, Predict, Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1. Apply relevant code of ethics in driver training 5.2. Explain acceptable behaviour and conduct related to road use 5.3. Record and maintain accurate records 5.4. Adhere to the workplace code of practice. 5.5. Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6. Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and responsely-litting of a First Aider.		trainees.
4.2 Demonstrate defensive driving techniques such as SIPDE (Scan, Identify, Predict, Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1. Apply relevant code of ethics in driver training 5.2. Explain acceptable behaviour and conduct related to road use 5.3. Record and maintain accurate records 5.4. Adhere to the workplace code of practice. 5.5. Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6. Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and response of a First Aider.		
such as SIPDE (Scan, Identify, Predict, Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1.Apply relevant code of ethics in driver training 5.2.Explain acceptable behaviour and conduct related to road use 5.3. Record and maintain accurate records 5.4.Adhere to the workplace code of practice. 5.5.Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6.Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and response of a First Aider.	4. Facilitate defensive driving principles	4.1 Teach advanced driving skills to learners.
Decide and Execute) to learners. 4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5.1 Apply relevant code of ethics in driver training knowledge and understanding of professionalism in the road traffic sector 5.1. Apply relevant code of ethics in driver training 5.2. Explain acceptable behaviour and conduct related to road use 5.3. Record and maintain accurate records 5.4. Adhere to the workplace code of practice. 5.5. Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6. Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and responsibilities of a First Aider.	and techniques sessions to respond to	4.2 Demonstrate defensive driving techniques
4.3 Demonstrate safe driving principles such as LLLC (Look ahead, look around, leave the room and Communicate) to learners. 4.4 Teach learners how to deal appropriately with adverse behaviour in relation to other road users. 4.5 Describe types of hazards associated with motorised vehicle driving to learners. 4.6 Teach learners effective and timely ways of responding to hazards on the road. 5. Demonstrate broad technical knowledge and understanding of professionalism in the road traffic sector 5.1. Apply relevant code of ethics in driver training 5.2. Explain acceptable behaviour and conduct related to road use 5.3. Record and maintain accurate records 5.4. Adhere to the workplace code of practice. 5.5. Maintain personal hygiene and use personal protective equipment (PPE) in the workplace. 5.6. Exercise customer service in line with customer service standards 6.1 Identify legislation pertaining to basic First Aid response in driving. 6.2 Apply knowledge of the role and	emergency situations.	such as SIPDE (Scan, Identify, Predict,

ASSESSMENT ARRANGEMENTS

The contribution of formative assessment to the final grade shall be 70%, and the contribution of summative assessment to the final grade shall be 30%.

MODERATION ARRANGEMENTS

Internal and external moderation shall be done in accordance with applicable policies and regulations. Moderators shall be registered and accredited by BQA.

RECOGNITION OF PRIOR LEARNING

RPL will be used to award credits towards part qualification and full qualification and will be supported by institutional policies in line with national policies on RPL.

CREDIT ACCUMULATION AND TRANSFER

CAT will be used to award credits towards part qualification and full qualification, and will be supported by institutional policies, in line with national policies on CAT.

PROGRESSION PATHWAYS (LEARNING AND EMPLOYMENT)

Horizontal Articulation

Certificate V in Driving

Vertical Articulation

Diploma in Driver Education

Employment Pathways

- Driving Instructor
- Driving Test Examiner/Assessors

QUALIFICATION AWARD AND CERTIFICATION

To be awarded Certificate V in Driver Education, a candidate must have a minimum total credit of 120 as per the rule of combination stated.

Certification

Candidates meeting prescribed requirements will be awarded certificate and a transcript by the DRTS in accordance with standards prescribed for the award of the qualification. Candidates not meeting prescribed requirements may be awarded a transcript only.

SUMMARY OF REGIONAL AND INTERNATIONAL COMPARABILITY

Title: This qualification is called Certificate V in Driver Education, whilst the South African qualification is titled Occupational Certificate: Driving Instructor at NQF Level IV, with 52 Credits, while the New Zealand qualification is titled National Certificate in Driving (Education and Assessment) with optional strands in Light Motor vehicle, Heavy Motor Vehicle, Motorcycle, and Off-Road vehicle, NZQF Level 5, with 110 credits. Comparably, the qualifications are titled differently in the three countries. However, the intended purpose is similar in that they aim to professionalise driving instruction in these respective countries.

NQF levels: This qualification is at NCQF level 5, which compares well with the New Zealand benchmark, whose qualification is pitched at NZQF Level 5 (110 credits), as they have similar level descriptors. It has also been compared with the South African qualification, which has been pitched at NQF Level IV (52 credits), although at a different level as there are no regional benchmarks. However, the purpose of the South African and this qualification are similar, as they both train driving instructors. The credits of this qualification are pitched to align with the New Zealand benchmarks. This qualification is worth 120 credits, which meets the minimum recommended NCQF credits for level 5, but not 110 as the New Zealand benchmark, as the credits would be less than the minimum NCQF requirement.

Main Exit levels outcomes: They are similar for all qualifications, for they are all about being able to instruct learners on driving and road safety and enable a learner to obtain a learner's and driving licence in accordance with the requirements of the applicable legislation.

Main modules: This qualification has 12 core modules as compared to the 12 core modules of the New Zealand benchmark. The South African one has seven modules. Therefore, this qualification is more similar to the international benchmarks.

Assessments: These qualifications and benchmarks emphasise the achievement of all learning outcomes and assessment criteria.

Pathways: The pathways for all the qualifications are similar for the qualifications compared as they all produce driver trainers, assessors and road safety professionals.

In conclusion, this qualification is similar to the benchmarked qualifications in terms of purpose, while in terms of level of complexity and approximate duration is similar to the New Zealand benchmark.

REVIEW PERIOD

This qualification will be reviewed every five (5) years.
